shahniku2004@gmail.com

Interaction Design student with hands-on experience in Agile and Scrum practices through university projects. Skilled in merging creative design thinking with structured methodologies to craft engaging, user-centered experiences. Proficient in storytelling, prototyping, and media design, with a strong foundation in semiotic and critical analysis.

PROJECTS

Ghar jo hum piche chhod aaye — Virtual Reality simulation

Made the Interaction and physics simulation, Texturing and baking

(Software used : Unity)

Chamku — Toothpaste Advertisement

Directed and edited a 40 sec advertisement.

(Software used : Premiere pro, After effects)

Ministry of Misconduct — Game

A satirical p5.js decision game where players play a minister approving morally loaded files over 7 days, with a dynamic corruption meter driving branching consequences. Actively in development.

(Skills: p5.js, development, creative coding, game development, game loop and state management, UI/UX design, procedural visuals, particle effects, event handling, narrative design, branching scenarios, systems design, and satirical creative writing.)

Buddha Head (L.D. Museum) — Narrative Storytelling

Developed narrative based stories inspired by historical artifacts to reinterpret museum experiences through emotion and perspective. Focused on building meaning through language, symbolism, and pacing to engage audiences beyond traditional display methods.

(Skills: Narrative Design, Storytelling, Critical Thinking, Semiotic Analysis, Cultural Research)
